

USER'S GUIDE FOR FILING 302 REPORT IN E-PLAN

EPCRA Section 302 - Emergency Response Planning

The Emergency Planning and Community Right-to-Know Act (EPCRA) is known as Title III of the Superfund Amendments and Reauthorization Act (SARA). **Section 302** of EPCRA requires facilities to determine if they have any extremely hazardous substances (EHS) located on-site above a Threshold Planning Quantity (TPQ). EPCRA §302 EHS and their corresponding TPQs can be found in the "[List of Lists](#)." If a facility has an EHS that exceeds the TPQ, the owner or operator must submit a **one-time notification** to the State Emergency Response Commission (SERC) and the Local Emergency Planning Committee (LEPC) (if one exists in your community). If at any time a facility obtains or produces an EHS exceeding the TPQ, that facility must notify the SERC and LEPC within 60 days.

Criteria for submitting the facility profile information to the SERC and LEPC:

- Facility has an EHS on site that is subject to reporting under §302 and can be found in the SARA Title III "List of Lists" (i.e., is a listed §302 chemical). The EHS list can also be found in [40 CFR Part 355, Appendices A and B](#); and
- The EHS exceeds the TPQ at any one time.

How is an EHS quantity calculated?

If an EHS is present in a mixture, only the quantity (in pounds) of the EHS within the mixture applies toward the TPQ assessment. Refer to the Material Safety Data Sheet (MSDS) or Safety Data Sheet (SDS) to determine the mixture component percentages. For instance, if a 100 pound mixture contains 20% by weight of an EHS, then the EHS is present at 20 pounds.

What are some example EHSs?

Some common EHSs and their 302 TPQs include ammonia (500 lbs), formaldehyde (500 lbs), chlorine (100 lbs), sulfuric acid (1,000 lbs), nitric acid (1,000 lbs), and phosphorus (100 lbs). TPQs refer to the cumulative total of each chemical stored at a facility. For instance, if a facility has 500 pounds of sulfuric acid used in wastewater treatment and 600 pounds of sulfuric acid in an electric fork lift battery, reporting is required because sulfuric acid is present at the facility over 1000 pounds, the TPQ.

How is EHS reporting under EPCRA §302 different from EPCRA §312 (Tier II) reporting?

There are two main differences between EHS reporting associated with §302 and §312.

1. First, an EHS in §302 is reportable if it meets or exceeds the TPQ. An EHS is reportable under §312 if it meets or exceeds the TPQ or 500 pounds if 500 pounds is lower than the TPQ. For example, the TPQ of nitric acid is 1,000 pounds. For nitric acid to be reportable under §302, it must meet or exceed 1,000 pounds. However, nitric acid is reportable under §312 if it meets or exceeds 500 pounds.
2. Secondly, §302 is a one-time reporting of an EHS. §312 requires annual reporting of an EHS.

USER'S GUIDE FOR FILING 302 REPORT IN E-PLAN

E-Plan Online Tier II Reporting system

Log on to the system at <https://tier2.erplan.net>

First Time Users

Once at the Welcome to E-Plan's Online Tier II Reporting System page, click on "**Create An Account**" link to create a new 7-digit Access ID (e.g., 1001234). You will be prompted to enter a password twice, the name of the submitter, and a **valid** email address for your submission. The password will protect your submission against unauthorized access.

If you have already registered for an account, just sign in with your seven-digit Access ID and password.

UT DALLAS
The University of Texas at Dallas

Welcome to E-Plan's Online Tier II Reporting System

This easy E-Plan online reporting system will allow you to create a report you can submit to your state to meet their requirement for filing of (SARA Title III) Tier II Emergency and Hazardous Chemical Inventory Reports. This system is for Tier II filing organizations to file their Tier II reports to the State each year. However, filing Tier II report via E-Plan may not fulfill the mandate per your state SERC and/or county LEPC and local fire department. Contact your State and County officials to see if they accept E-Plan as a form of electronic filing.

If you have comments or questions, please use the [Contact Us](#) button on any E-Plan website page.

Important Notes

1. For reporting year 2014, **UT Dallas** institutes **an administrative charge** for organizations that use E-Plan for creating/filing online Tier II reports. Please look at the [list](#) to see if a charge for creating/filing applies to each facility.
2. Detailed instructions including how and where to pay online payment are available. Please view this step-by-step [guide](#)
3. If your state accepts Tier2 Submit such as t2s or Tier2 zip file, you can create and export data via E-Plan. Please [Contact Us](#) to ask a question or report a problem.
4. What's changed in the E-Plan for filing year 2014?
 - **North Carolina:** Hazardous materials facility fees will begin to be collected **January 1, 2015**. Guidance is available on NCEM's Tier II website at <https://www.nccrimecontrol.org/Index2.cfm?a=000003,000010,000064,000391>
5. Please refer to your state's web site and the [EPA's State Tier II Reporting Requirements and Procedures](#) for submission details.
6. New E-Plan online Tier II training video. Click [here](#) to watch.

Attachment: EPCRA302Facilities.pdf (**one-page report**)

Dear Joe Smith:

THIS IS AN AUTOMATED RESPONSE. PLEASE DO NOT REPLY TO THIS MESSAGE.

Your Section 302 - Emergency Planning Notification data was successfully processed by the E-Plan's Online Reporting System at The University of Texas at Dallas as shown in the attached E-Plan's Section EPCRA 302 Notification.

Following table lists the current status of your facilities created under Access ID **1001234**

Facility Id	Facility Name	State	Filing Type	Filing Status	First Submit Date
4986134	Billings site	MT	302	Filed	Thu Jan 15 04:27:50 UTC 2015

If you need assistance, please contact the E-Plan Admin Team via the "Contact Us" button at <https://tier2.erplan.net>.

Best regards,
E-Plan Admin Team
