24) Texas (TX)
25) Utah (UT)

Utah requests the following:

The state of Utah requests that each new facility subject to reporting under EPCRA Section 311/312 acquire a 4-digit Utah Tier2 ID number from the Utah Department of Environmental Quality. To request assignment of a Utah Tier2 ID number please call DEQ at 801-506-4149 (or 801-506-4100 and ask for the EPCRA Coordinator). This does not apply to any facility to which a Utah Tier2 ID number has already been assigned by DEQ.

Where to enter the ID in the Tier2Submit application - The field is located in the Facilities window under the ID and Regs tab. Select the next available field under the column ID TYPE, and click in the field to access the drop-down menu. Select State ID. The cursor will automatically move into the column ID. Enter the 4-digit ID number provided. Task is complete.

Additional Information - The Utah Tier2 ID number assignment is tied to the address location of the facility. For this reason given normal circumstances once the ID number has been assigned it will not change. If the facility moves to another location, the facility should contact DEQ and request a new Utah Tier2 ID number. When completed, the electronic file may be submitted to the Utah Tier generic email address: edeerrp2@utah.gov
